Limited amounts of art related to the claimed subject matter are available within the Office, and are generally found in class 345 and subclass 424, which describe subject matter wherein a volume element represents a value at a point in three-dimensional space. A broader range of art to search is necessary to establish the level of knowledge of those of ordinary skill in the claimed subject matter art of imaging three dimensional data volumes. This information is required to identify products and services embodying the disclosed subject matter of imaging three dimensional data volumes and identifying the properties of similar products and services found in the prior art. Applicants are believed to have this information because Geoprobe, a product produced by the Applicant, was in public use or offered for sale more than one year before the filing date of the application.

#### Fee Waiver

The fee and certification requirements of 37 C.F.R. § 1.97 are waived for those 1. documents submitted in reply to this requirement. - 2. This requirement is an attachment of the enclosed Office action. A complete response to the enclosed Office action must include a complete response to this requirement. The time period for reply to this requirement coincides with the time period for reply to the enclosed Office action, which 3 months.
